*A greener and healthier home
for you and your family.*

Disclaimer

We have made every effort to make the colours on screen as close to actual paint colours as computer screen resolutions as allow. Please refer to paint chop samples for an accurate match. Colours will vary depending on your screen settings and resolution. Applied sample is recommended when colour matching is critical.

Jotun Paints

EcoHealth™ Inspired With Majestic

Mother Nature and Health are the greatest gifts in life. With ever increasing environmental and health concerns in the world today, Jotun brings you the new Majestic EcoHealth™ range.

Majestic's EcoHealth™ is developed through Jotun's extensive research and development, delivering a revolutionary water-based paint that is entirely free from major harmful chemicals and toxic substances. Formulated with the finest quality ingredients, Majestic's EcoHealth™ will beautify and protect your home for years to come.

Enjoy a greener and healthier home for you and your family!

EcoHealth™ It matters.

Sometimes, a great paint is all about what it does not have

Rest assured that Majestic EcoHealth™ range is 100% free from harmful chemicals such as APEO, formaldehyde and heavy metals. Majestic EcoHealth™ uses completely no APEO in both its base paint and colourant! APEO (Alkylphenol ethoxylate) is a chemical compound commonly used in conventional paints. It is hazardous to health and the environment, causing allergies in humans as well as hormone imbalance to both humans and marine life. The choice for healthier living rests in your hands.

Majestic EcoHealth™ range is Ultra Low VOC and surpasses international & local standards for green coatings. VOC (Volatile Organic Compound) contributes to global warming and health risks when inhaled; including nausea, breathing difficulties, asthma attacks and others. Be free from worries!

Without the use of formaldehyde and ammonia, you can be sure that the Majestic EcoHealth™ range carries virtually no odour during and after painting!

Long lasting care and protection

Majestic EcoHealth™ range is enhanced with special anti bacterial and anti fungal properties* that effectively inhibit the growth and spread of common household microorganisms that thrive on contaminated surfaces and cause general discomfort, skin irritation, allergies and risk of diseases; ensuring a safe, healthy and clean environment.

* Majestic has been tested and achieves the recommended efficacy for anti bacterial activity, in accordance with ISO 22196:2007.

Wipe away stains, not the colours with Majestic EcoHealth™ range! Formulated with excellent stain and colour fade resistant properties, you can enjoy a beautiful and pristine wall for a long time.

TrueColour Technology™⁺⁺

Majestic's TrueColour Technology™⁺⁺ combines Jotun's cutting-edge pigment technology and uniquely formulated special binder with EcoHealth elements.

The result? An environmentally friendly and hygienic paint for healthy living. See TrueColour shine with a touch of elegant pearl sheen finish or royal matt smoothness.

"Right now, we are opening up to fresh, new beginnings. We are getting back in touch with elements of nature - fresh water, clean air and shades of white. We are on the right step towards soft and elegant minimalism, getting rid of unnecessary things that restrain our creativity and collective expressions. Through rediscovery, we eagerly explore new beginnings and new possibilities!"

Lisbeth Larsen, is Jotun's very own colour expert. With a keen eye for details and nuances, she is interested in trends. Using inspiration drawn from her travels, conversation with and observation of various cultures, Lisbeth creates colour themes ideal for every season.
